Quantum Innovation Partners with AT&T Cybersecurity for AlienVault USM Platform

Strategic partnership delivers unified security management and threat intelligence to organizations across the Middle East

Riyadh, Saudi Arabia, [Date] – Quantum Innovation today announced a strategic partnership with AT&T Cybersecurity to deliver AlienVault Unified Security Management (USM), a comprehensive security platform that combines threat detection, incident response, and compliance management in a single solution.

AlienVault USM provides organizations with essential security capabilities including asset discovery, vulnerability assessment, intrusion detection, behavioral monitoring, and SIEM functionality, all powered by the continuously updated Open Threat Exchange (OTX) threat intelligence platform.

"Many organizations, particularly small to mid-sized enterprises, struggle with the complexity and cost of implementing multiple security tools," said Adnan Habib, Founder and CTO of Quantum Innovation. "AlienVault USM addresses this challenge by providing comprehensive security capabilities in a unified platform that is both powerful and accessible. This partnership enables us to deliver enterprise-grade security to organizations of all sizes across the region."

AlienVault USM's unified approach provides:
- Asset discovery and inventory management
- Vulnerability assessment and prioritization
- Intrusion detection and behavioral monitoring
- SIEM and log management
- Threat intelligence from OTX community
- Automated incident response capabilities
- Compliance reporting and management

"We are pleased to partner with Quantum Innovation to expand access to AlienVault USM across the Middle East," said [AT&T Cybersecurity Executive], [Title] at AT&T Cybersecurity. "Their expertise in delivering managed security services and their commitment to customer success aligns perfectly with our mission to make effective cybersecurity accessible to organizations of all sizes."

Through this partnership, Quantum Innovation will provide:
- Implementation and deployment of AlienVault USM
- Managed security services leveraging the platform
- 24/7 security monitoring and incident response
- Threat intelligence analysis and reporting
- Security operations consulting and optimization
- Training and knowledge transfer for internal teams

Organizations across the Middle East will benefit from this partnership, gaining access to a cost-effective, comprehensive security platform backed by continuous threat intelligence and Quantum Innovation's local expertise.

About AT&T Cybersecurity
AT&T Cybersecurity helps to reduce the complexity and cost of fighting cybersecurity threats. Together, the AlienVault and AT&T Cybersecurity portfolios provide a unified, collaborative approach to security.

About Quantum Innovation
Quantum Innovation is a trusted, global partner delivering mission-critical cybersecurity training, certifications, and advanced technology solutions to organizations, with presence in Saudi Arabia, UAE, and Australia. Visit https://www.quantuminnovation.com or email a.habib@quantuminnovation.com.
