

Quantum Innovation Announces Strategic Partnership with Stealth Mole for Advanced Threat Intelligence

Collaboration brings cutting-edge dark web monitoring and cyber threat intelligence capabilities to organizations in the Middle East

Riyadh, Saudi Arabia, [Date] – Quantum Innovation, a leading cybersecurity solutions provider in the Middle East, today announced a strategic partnership with Stealth Mole, a pioneer in dark web intelligence and external threat monitoring solutions. This partnership will deliver advanced threat intelligence capabilities to organizations seeking to protect their digital assets and sensitive information from emerging cyber threats.

Stealth Mole's innovative platform provides real-time monitoring of the dark web, deep web, and various threat actor communities, enabling organizations to detect data breaches, credential leaks, and potential cyber attacks before they impact business operations.

"In today's threat landscape, organizations need proactive intelligence to stay ahead of cybercriminals," said Adnan Habib, Founder and CTO of Quantum Innovation. "Our partnership with Stealth Mole brings world-class dark web monitoring and threat intelligence capabilities to our clients, enabling them to identify and respond to threats before they materialize into security incidents."

The partnership addresses the growing need for external threat intelligence as organizations face increasingly sophisticated cyber attacks. Stealth Mole's platform continuously monitors underground forums, marketplaces, and communication channels where threat actors operate, providing early warning of:

- Compromised credentials and data leaks
- Planned cyber attacks and vulnerabilities
- Brand impersonation and fraud attempts
- Insider threats and intellectual property theft
- Ransomware and malware campaigns

"Quantum Innovation's extensive experience in the Middle East cybersecurity market and their strong relationships across critical sectors make them an ideal partner to deliver our threat intelligence solutions," said [Stealth Mole Executive], [Title] at Stealth Mole. "Together, we will help organizations gain unprecedented visibility into external threats and take proactive measures to protect their assets."

Through this partnership, Quantum Innovation will provide:

- Deployment and integration of Stealth Mole's threat intelligence platform
- 24/7 threat monitoring and alert services
- Threat intelligence analysis and reporting
- Incident response coordination
- Security awareness training based on real threat intelligence

This collaboration reinforces Quantum Innovation's commitment to delivering comprehensive cybersecurity solutions that address the entire threat lifecycle, from prevention and detection to response and recovery.

About Stealth Mole

Stealth Mole is a leading provider of dark web intelligence and external threat monitoring solutions, helping organizations worldwide detect and mitigate cyber threats before they cause damage. The platform leverages advanced AI and machine learning to monitor thousands of underground sources and deliver actionable intelligence.

About Quantum Innovation

Quantum Innovation is a trusted, global partner delivering mission-critical cybersecurity training, certifications, and advanced technology solutions to organizations, with presence in Saudi Arabia, UAE, and Australia.
